TIPS FOR GROUTING

- Always follow instructions on water amounts and drying times.
- Dampen unglazed tiles before grouting.
- When grouting tiles with faux joints, you can add Kiilto Strong additive to Saumalaasti tile grout.
- Always follow manufacturer's instructions when grouting natural stone, eg soap stone.

KIILTO CUSTOMER SERVICE

We will help you in the selection of the right product, and in questions regarding right working conditions and methods.
